WHAT WE DO

The ISMAC portfolio

ISMAC brings together five practice areas: Infrastructure, Security, Mobility, Analytics and Cloud. Alongside them, our Technology Consulting Team (TCT) provides professional services.

Infrastructure
Always-available, scalable data centre, network and end-user infrastructure.

Security
A security and privacy framework that protects every layer.

Mobility
Mobile and wireless solutions for a connected, secure workforce.

Analytics
Real-time insight from machine and business data.

Cloud
Consolidate IT with trusted cloud platforms.

Professional services
Provided by our Technology Consulting Team (TCT).
